

## **MISSION STATEMENT**

The mission of the SOUTH POWAY RESIDENTS ASSOCIATION is to protect and preserve a high quality of life for all Poway residents, with our primary focus on South Poway.

## **SPRA'S CORE BELIEFS**

### **We believe that:**

- City government should be fair, equitable, open and accessible for all Poway residents.
- South Poway has a history of inequitable representation and advocacy on our City Council.
- Affordable housing should be dispersed throughout the city so as to not overly impact any one neighborhood or school.
- Open space and parks should be preserved and protected for generations to come.
- Infrastructure needs (streets, sidewalks, sewers, drainage, lighting) should be a priority over enhancement projects.
- Large redevelopment projects (i.e. \$1 million dollars and above) should be approved only by a vote of Poway residents.
- Traffic congestion represents a threat to our quality of life and safety and must be a priority.
- Sheriff and fire personnel should be given the tools they need to protect the city.
- Poway City Council should work closely with the Poway Unified School District to ensure an equitable and high quality education for all students.
- Small Poway businesses are the cornerstone of our community. We support and encourage a Poway business environment in which our “Mom ‘n’ Pop” businesses can thrive.
- Problems can be solved with open and honest communication and a focus on the issues.
